PERSONAL PROJECTS

Uomo-ui | Full-Featured E-Commerce Platform (Team Project): Code | Live

Technologies: Next.js, Firebase, TanStack Query, Zustand

- Built a production-ready e-commerce platform (listing, filtering, cart, checkout, order tracking) boosted Lighthouse score **60 to 90** via lazy loading & code splitting.
- Integrated Firebase Auth and TanStack Query for API caching, with a custom scroll solution adapting to device refresh rate for a smooth, app-like experience.

BazarDor - Grocery Price Tracker: Code | Live

Technologies: React, Zustand, Lenis

- Built a real-time grocery price tracker with instant state updates via Zustand, eliminating full page reloads for a seamless user experience.
- Implemented smooth scrolling with Lenis and optimized data flow architecture for fast, app-like performance.

CIT Promotion – Institute Course Website: Code | Live

Technologies: JavaScript, Tailwind CSS, Vercel

- Built a production-level course promotion site for a real institute, including seat booking, student showcase, and dynamic course module listing.
- Focused on clean layout, custom scroll use, and professional UX, deployed live on Vercel.
